

## A FAMILY OF SPECIALTY VARIETIES

### CHOICE FOUR—FOR A UNIQUE APPLE EXPERIENCE

### HONEYCRISP

This apple is hugely popular

**Appearance:** Unusual red over yellow background

**Texture:** Crunchy blast

**Flavor:** Mild, sweet flavor

**Usage:** Great for snacking, fresh-cut slices and salads

### JONAGOLD

A blend of Jonathan and Golden Delicious

**Appearance:** Usually large and aromatic

**Texture:** Superby crisp, juicy flesh

**Flavor:** Unique honey-tart flavor

**Usage:** Excellent eating fresh and cooking variety

### AMBROSIA

Discovered in the late 1980s in British Columbia, Canada, this is an excellent snacking apple

**Appearance:** Medium to large in size; bi-colored apple with pink blush against creamy yellow exterior

**Texture:** Creamy flesh

**Flavor:** Very juicy and sweet

**Usage:** Snacks, salads and cooking

### RED PRINCE

Cross between a Jonathan and Golden Delicious

Same parentage as Jonagold but with a much different eating character

**Appearance:** Attractive apple, deep red in color; mainly uniform in appearance

**Texture:** Extremely crunchy with a juicy, cream-colored flesh

**Flavor:** Rich full flavor, mildly sweet

**Usage:** All-purpose variety, excellent for fresh eating, salads and baking
